Natural sunlight emits ultra-violet and infra-red rays which are reproduced in sunlamps.
Ultra-Violet Radiation:
UVA-(Direct tanning). Tanning is caused by oxidation of pigment already in the skin. Your skin does not turn red but takes longer to tan than by UVB.
UVB-(Indirect tanning). UVB produces a tan by creating new pigment in the skin. There is slight reddening of the skin which disappears and a tan remains. This method provides protection against strong sunlight and is faster than UVA.
Infra-Red Radiation:
(IR). Infra-red rays penetrate the skin and relax aching muscles and other conditions.

EASY TO MEASURE AND ORDER.

Simply measure the height (A) and width (B) of the window including the frame - see fig. 1. This establishes the height and width combination you require e.g. for a window 3' 10" high by 5'9" wide you require one 4' height pack and one 6' width pack (i.e. one of 700/4872 and one of 700/4841) and simply cut down to the exact length required.

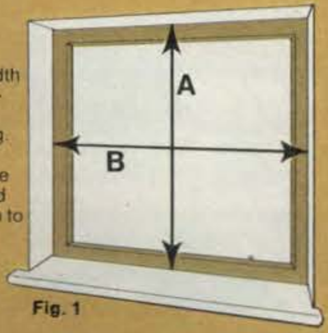

Fig. 1

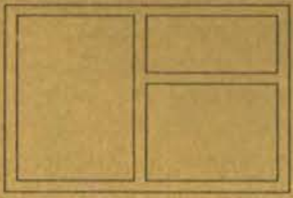
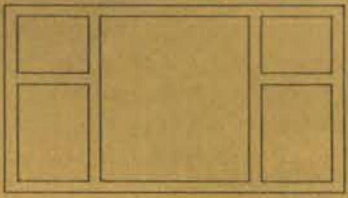
2 PANEL or 3 PANEL SYSTEMS are available to suit your existing style of window.



A window similar in style to this will suit a 2 PANEL SYSTEM. You may have 2 sliding panels of equal width or 2 sliding panels of unequal width.



A window similar in style to this will suit a 3 PANEL SYSTEM. You may have 3 sliding panels of equal width or 3 sliding panels of unequal width etc.

However, whichever system you choose you still only need to measure the window as above and order one of each of the appropriate height and width packs. With the 3 panel system you will need to order one extra panel pack (Cat. No. 700/4906).

N.B. No single panel should exceed 20 sq.ft.(1.86 sq. metres) (please note that this refers to any single pane of glass and not the total window). In order to prevent any tilting when opening or closing the panels it is suggested that the height of each panel should preferably not be more than twice the width of the panel.

Our Pricing Policy

The Argos prices shown in this catalogue are generally compared with Recommended Retail Prices provided by our suppliers.
Where Recommended Retail Prices are not available at the time of going to press, they have, where possible, provided Suggested Retail Prices.
All sizes, weights and capacities are approximate. It is possible that descriptions may have changed if the supplier, for instance, has altered his specifications or that there has been a change of the supplier after the catalogue has gone to press.

This catalogue, effective from August 6th 1984, supersedes all previous catalogues or brochures and remains in effect until further notice.
Prices stated in this catalogue were established during May 1984.
Information is compiled with all possible care, but the publishers do not hold themselves responsible for errors or omissions.
